EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michele Cimbala on July 6, 2005.

The application has been amended as follows:

Claim 1 (currently amended): A method for recovering one or more monosaccharides from a feed solution containing rhamnose and at least one monosaccharide selected from the group consisting of arabinose, xylose and mixtures thereof by using chromatographic separation, comprising a multistep process wherein at least one step comprises using a weak acid cation exchange resin for said chromatographic separation so as to obtain a rhamnose rich fraction and thus recover rhamnose from the feed solution.

The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest the use of a weak acid cation exchange resin for separating rhamnose from a solution containing rhamnose and arabinose and/or xylose. Additionally, applicants have filed a terminal disclaimer over copending and allowed application 10/403,089, which is drawn to methods of separating hydrophilic and hydrophobic carbohydrates using a weak acid cation

exchange resin (rhamnose is known to be more hydrophobic than arabinose and/or xylose due to its methyl group).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Traviss C. McIntosh whose telephone number is 571-272-0657. The examiner can normally be reached on M-F 9:30-6:00.
